1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2, and 12 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by CRAIG (4,003,265).

Note figures 2 and 3. CRAIG and column 5 line 36 – column 6 line 6. CRAIG discloses a method of balancing a rotating spindle assembly using eccentric rings that are mounted on the spindle.

3. Claims 3-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Note that claim 9 has now been indicated as defining over the art. There is no disclosure in CRAIG of a controller adjusting the position of the rings.

4. Applicant's arguments filed 11/1/04 have been fully considered but they are not persuasive.

Applicant argues that CRAIG measures the imbalance before the eccentric rings are mounted on the spindle. The Examiner does not agree. A complete reading of CRAIG indicates that the rings are always mounted on the spindle.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
